

UNITED WAALHAVEN TERMINALS

Activities

- Storage and Transhipment of empty containers
- Repair and cleaning of all types of containers including reefers

United Waalhaven Terminals is specialised in the handling, storage, estimating, repair and transhipment of empty containers. The terminal is well equipped for cleaning and repairing all types of containers, including reefers. Our web-based information system and applications, for release and EDI, guarantee up to date and accurate information. UWT operates 3 locations in the port Rotterdam, all with water connections.

The barge facilities make United Waalhaven Terminals the best-equipped empty depot of Rotterdam.

Storing containers on our water connected depots offers customers maximum flexibility combined with handling capacity for intermodal concepts.
